

BESPOKE SECURE ABSOLUTE RETURN BOND SERIES II PROTECTED OPTION

This exciting new investment offers the opportunity to achieve strong, consistent returns no matter what lies ahead, with original capital fully guaranteed at maturity.

Following the success of The Bespoke Secure Absolute Return Bond, Bespoke Investments Limited is delighted to launch the fifth offering in the 'Bespoke' range of investment products – The Bespoke Secure Absolute Return Bond Series II Protected Option – a fully **capital guaranteed** absolute return investment.

The right time, the right investment.

Analysts continue to try to predict what lies ahead for us in terms of financial markets and global economies. There continues to be much debate about whether financial markets and the world economy are;

- 1) at the beginning of a strong recovery (a “V” shaped recovery);
- 2) in the middle of a significant rally which will ultimately fizzle out and a “double dip” recession will soon resume (a “W” shaped recovery) or;
- 3) that whilst we may have hit bottom, we will remain here for a prolonged period before true growth emerges (a “U” shaped recovery).

It's fair to say that arguments exist which could justify any one of the above scenarios. Only upon reflection, probably some 18/24 months from now, will it become evident which one of these scenarios turns out to be the 'correct call'.

We believe the Bespoke Secure Absolute Return Bond Series II is the optimum investment product for an uncertain market environment.

Bespoke Investments Limited's Track Record to date

Bond	Capital Guarantee	Status	Return
Bespoke Autocallable Certificate 1	None – Soft Guarantee applies	Matured – Paid out to Investors 12 Months	25% IRR
Bespoke Capital Secure Callable Bond	100%	Matured – Paid out to Investors 12 Months	8% IRR

HOW THE INVESTMENT WOULD HAVE PERFORMED SINCE 2001

Source: Bloomberg, BNP Paribas. Performance as of January 2010; Simulations over the 5 February 2001 to 8 January 2010 period; Excess Returns, in EUR net of fees Note: Global Equity: MSCI World (MXWO), European Bonds: IBOXX Eurozone Sovereign 5-7 Performance (QW1M), Commodities: S&P GSCI (SPGSCIP) Past performance is not necessarily a guide to future performance. No company of the BNP Paribas Group will be liable for any direct or indirect loss resulting from the use of the contents of this report. These simulations are the result of estimates made by BNP Paribas at a given moment on the basis of the parameters selected by BNP Paribas, of market conditions at this given moment and of historical data, which should not be used as guidance, in any way, of the future results of the BNP Paribas Platinum Index Series 2. Consequently the figures and prices indicated in this document have an indicative value only and do not constitute in any way an offer on behalf of BNP Paribas.

The Underlying Investment Index

The Bespoke Secure Absolute Return Bond Series II is a 3 year, 6 month capital secure investment, with the underlying index being the BNP Paribas Platinum Series 2 Index. This is an absolute return, low volatility managed index that has provided strong CONSISTENT returns through some of the most volatile economic times in history.

Had the Bespoke Secure Absolute Return Bond been available, the index would have averaged 7.37% compound per annum since its launch in February 2001 (see chart).

Warning: These Simulated Performance figures are estimates only. They are not a reliable guide to the future performance of this investment.

Warning: Past Performance is not a reliable guide to future performance.

Warning: If you cash in your investment before 01 October 2013 you may lose some or all of the money you put in.

Warning: This illustration is based on our understanding of current Revenue law and practice which is subject to change without notice and does not constitute tax advice.

Warning: Deductions for charges and expenses are not made uniformly throughout the life of the product, but are loaded disproportionately onto the early period. If an investor withdraws from the bond prior to the end of the 3 year, 6 month term, or the bond is encashed following death, the practice of front-end loading will impact on the amount of money that the investor receives.

Warning: The value of your investment may go down as well as up.
